COLE SEED & SUPER UNIT WITH STEEL LIDS MADE BY VENNINGS

The Cole seed and super unit comes in a variety of sizes from 14' to 18' long. Ideal for air-seeders and combines alike, the longer top auger and bigger tube make the bin even easier to use. Discharging at a rate of over 500 kilograms of super per minute, filling an air-seeder or combine is a quick and hassle free experience.

Both 163mm (6 3/8") Augers are hinged for ease of transport. Both augers are PVC lined to prevent super build-up. A winch is fitted for raising & lowering of augers. Each bin is fitted with a large swivelling trapdoor at the bottom for quick unloading and cleaning. Augers can be run simultaneously or individually. 14-18' Bins powered by a 13 H/P Vanguard Electric start motor with option of Honda. Painted interior and 1200 Lumen LED work lights standard on all units. ALSO AVAILABLE WITH ROLL TOP TARP
